First announcement 5th Miró User Meeting

October 18–19, 2010
Haut Carré, Talence, France

The Miró software, developed and used in the Power Laser Department of the CEA/CESTA, simulates the nonlinear spatiotemporal propagation of an intense laser pulse in a complex laser chain.

The 5th Miró User Meeting is a review of the latest developments and modeling using the Miró code, in the scope of laser research and engineering projects. This meeting is also a great opportunity to share Miró user's feedback on technical hints and issues.

Meeting registration is free of charge and includes lunch breaks. You are invited to submit an abstract of your research work involving Miró simulations to the following address:

codemiro@cea.fr

Key dates

Meeting registration deadline:

July 15, 2010

Abstract submission deadline:

July 15, 2010

Notification of accepted papers:

August 15, 2010
